SUPPLEMENTARY INFORMATION:

Background

On May 16, 2013, the Animal and Plant Health Inspection Service published in the Federal Register (78 FR 28798-28800, Docket No. APHIS-2013-0042) a notice stating our

decision to complete an environmental impact statement (EIS) for the potential determinations of nonregulated status of cultivars of corn and soybeans produced by Dow AgroSciences LLC that are resistant to certain broadleaf herbicides in the auxin growth regulator group (particularly the herbicide 2,4-D). The EIS will perform a comprehensive environmental analysis of the potential selection of 2,4-D resistant weeds and other potential environmental impacts that may occur as a result of making determinations of nonregulated status of these events.

Comments on the notice were required to be received on or before June 17, 2013. We are extending the comment period on Docket No. APHIS-2013-0042 for an additional 30 days. This action will allow interested persons additional time to prepare and submit comments. We are also providing an opportunity to comment at two virtual public meetings during the comment period. Information on the virtual public meetings is available under DATES and ADDRESSES.

All comments received during the scoping period will be carefully considered in developing the final scope of the EIS. Upon completion of the draft EIS, a notice announcing its availability and an opportunity to comment on it will be published in the Federal Register.
